Elizabeth, it looks good! I made a few technical tweaks in the beginning and a few editorial changes thereafter. But you don't have to accept them if you disagree. This is just 'my five cents'.

Hope it helps.

J

**Subject:** draft Qs+As for CF update rollout

Hi, All. Please find attached my first draft of some Qs+As for the roll-out of the CF Update. The focus of these Qs+As is the agreement on insects. As you probably know, Jim wants the agreement to be highlighted in the roll-out. So we can probably expect some interest.

Do you think I hit all the correct questions? What about the answers? I have not yet shared with FEAD. I have spoken with Eric of FDA about these – he said he liked the questions and gave a few ideas on responses.

Thanks.
